

Student Thesis Cover – Instructions for LaTeX

In the folder you will find assets suitable to set up a thesis cover in LaTeX:

- Coat of arms png
- Wordmark png and svg

These assets and copy should be positioned centred, as per the example shown on the right.

- ‘Name of thesis...’ - Aptos 20pt (Bold)
- ‘BY’ - Aptos 12pt (CAPS)
- ‘First Name Surname’ - Aptos 20pt
- ‘Placeholder text’ - Aptos 14pt

N.B. Aptos is available in LaTeX using the fontspec package. To use Aptos, you need to install the Aptos font on your system. After installation, you can set the main font in your LaTeX document using the command:

```
\usepackage{fontspec}  
\setmainfont{Aptos}
```

If this is not possible, please use our substitute font, Arial.

**Name of Thesis goes here
across two or three lines**

depending on length

BY

First Name Surname

Placeholder text

**UNIVERSITY
OF WARWICK**
